## Company Profile

### History of Success

In a complex and ever-changing industry, Evron clients value the dependability of a proven leader.

Since 1983, we have helped more than 500 customers dramatically improve their customer service, increase sales, and cut the cost of doing business.

### Single Point of Responsibility

Save yourself the time, money and aggravation of dealing with multiple suppliers.

Evron provides you with a single point of responsibility for every one of your IT needs, including application solutions, the network infrastructure they run on, and the training and support to make sure they bring maximum value to your organization.

### Long-Term Partnerships

Over the years, your industry will change, and so will ours.

As new challenges arise, Evron clients enjoy the strategic advantage of a partner who understands their business and how they can profit from the latest technologies.

### End-to-End Integration

It is important to have technology that not only operates well, but co-operates well.

Our integrated solutions ensure that information flows smoothly throughout your business and into the hands of the people who need it.

### Proven Solutions

You can be confident in your investment because the products we implement have proven track records of performance.

Our intimate knowledge of these products comes from hundreds of implementations, and extensive use within Evron ourselves.

### Expert In-House Team

Evron has cultivated a highly trained and experienced in-house team. Our specialists work together every day to provide you with the very best service and products.

This team includes Account and Project Managers, Systems Engineers, Programmers and Implementers, Trainers, Cablers, Customer Service personnel, and specialists in Security, Internet Development and Business Consulting.
