

Compaq Sales Out Reporting

A PFW Extension

by **EVRON**

Create a Sales Out Report With One Click.

As a Compaq reseller, your company has recently taken on some new responsibilities – Compaq's Sales Out Reporting Program.

Altogether, you'll be reporting up to 52 fields of information for each sale, every week. Done by hand, that's a lot of data entry work, with the usual issues of time, accuracy and efficient use of resources. Clearly this calls for an automated solution. Not surprisingly, Evron has one.

Compaq Sales Out Reporting by Evron connects directly to your PFW accounting software to let you generate a complete, submit able report with just one mouse click. Contact us for more information.

Obligations of Compaq Sales Out Reporting:

- Required input of 28 fields of information including a number of different contacts and product details.
- Requested additional input of 24 "encouraged" data elements, mostly for rebate requests and rewards fees
- Applies to every reseller-invoiced sale
- Mandatory for every reseller
- Must be submitted weekly
- Must be submitted in a .csv file

HIGHLIGHTS

- Plugs directly into Platinum for Windows Accounting Software
- Automatically detects qualifying Compaq sales
- Generates line item report with one click
- Spreadsheet created in mandatory .csv format
- Stop process at any time to record changes/corrections
- Review spreadsheet in MS Excel or any text editor
- File can be sent to Compaq with no additional formatting
