easi.Pack

By Evron

History of Success

In a complex and ever-changing industry, Evron clients value the dependability of a proven leader.

Since 1983, we have helped more than 500 customers dramatically improve their customer service, increase sales, and cut the cost of doing business.

easi.Pack

Evron is pleased to offer easi.Pack for your business — a superior, value-added program that assists you in accurately packing and shipping outbound products to your customers.

This software is designed to help shippers select inventory while minimizing risk of sending incorrect items or overshipping. Select your Sage BusinessVision order and ship using a colour-coded method of tracking the products being shipped.

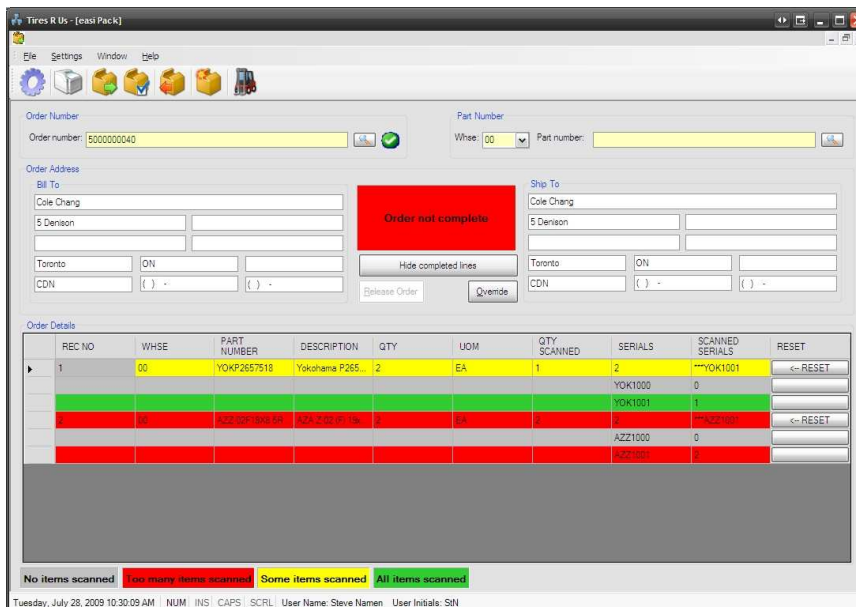

What easi.Pack Can Do For You

- Provides integration with BusinessVision software;
- Allow for documentation and confirmation of product shipment;
- Capability for a full audit trail, complete with logs;
- Easy to learn and with less errors.

This software works especially well for companies with a high degree of traffic involved in transferring goods in and out of warehouses and manufacturing centres.

Call Evron Today
