- Integration Specialists
- Solutions Tailored to Your Business
- Partners with the World's Leading Technology Companies

easi.Receive

By Evron

History of Success

In a complex and ever-changing industry, Evron clients value the dependability of a proven leader.

Since 1983, we have helped more than 500 customers dramatically improve their customer service, increase sales, and cut the cost of doing business.

easi.Receive

Evron is pleased to offer easi.Receive — software that works to keep track of your inventory as it comes into your warehouse.

Writing to BusinessVision in real-time, easi.Receive allows you to track inventory as it comes in. By scanning bar codes, easi.Receiver logs your tracked item through a colour-coded system to show status and to reduce errors.

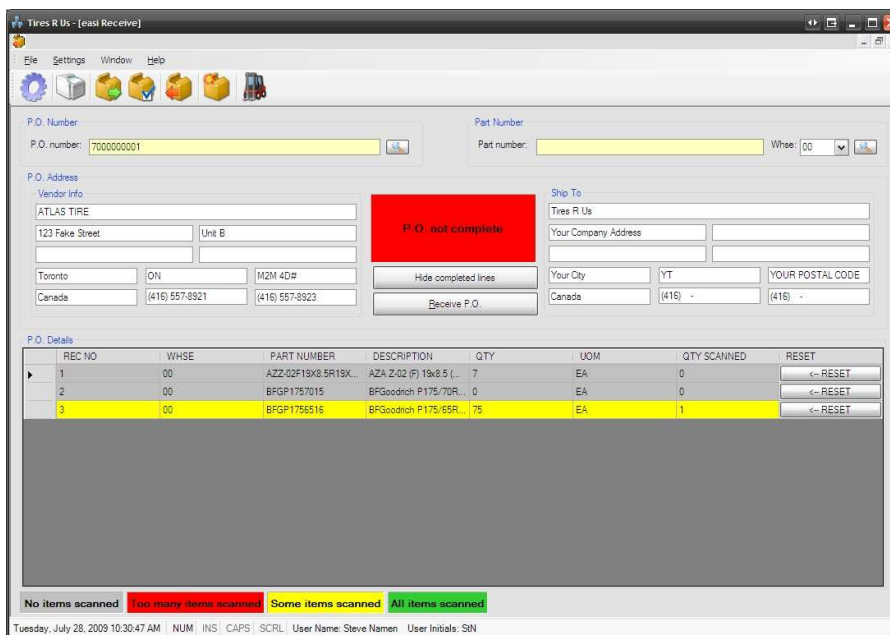

What easi.Receive Can Do For You

- Provides integration with your BusinessVision software;
- Allow for real-time verification of your in-stock inventory;
- Capability for a full audit trail, complete with logs;
- Easy to learn and reduces errors.

This software works especially well for companies with a high degree of traffic involved in transferring goods in and out of warehouses and manufacturing centres.

Call Evron Today
