Managed Services

By Evron

What is Managed Services?

Managed services is the practice of transferring day-to-day management of systems or operations as a strategic method for improved, effective and efficient operations.

Why Managed Services?

- Manage/minimize risk
- Reduce costs
- Access to specialized resources
- Improve business agility
- Increase focus on “core” competencies

Managed Services Benefits

- **Resource usage**
 - Make best use of your staff
- **Expertise**
 - Your IT environment is increasingly complex
- **Security**
 - Ensure your critical services are being maintained
- **Pro-active**
 - Resolve problems before they Happen
- Increase your staff productivity
- More effective customer service
- Predictable costs
- Single point of accountability, crucial in ensuring contract success
- Move IT from a reactive cost centre to pro-active business function
- Predictable expense management

- Focus from deploying and supporting applications to managing the services those applications provide
- Industry expertise from Evron that has “been there, done that.”

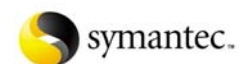

Services

- Single point accountability for systems administration and development
- Evron team to manage your environment
