

Platinum G/L Report

A PFW Extension

By Evron

Plan for Success With Detailed General Ledger Reports

Platinum General Ledger Report streamlines your business processes by integrating your accounting software more completely with the way your organization works.

This Platinum for Windows Extension improves your business analysis skills by reaching back into the Platinum sub-ledgers to give you a detailed and extensive cost report.

You'll have a better understanding of your company's expenses and make informed decisions about the future thanks to this smooth and efficient software solution from Evron.

Platinum G/L Report gives you:

- ☑ Clear and complete Crystal-based reports
- ☑ Customization to your specific business requirements
- ☑ Descriptive information pulled directly from PFW sub-ledgers

HIGHLIGHTS

- Detailed Expense Information
- Easy to Read Reports
- Merges with Platinum as One Product
- Built by Accounting Experts

Platinum General Ledger Report

By Evron

Understand your business expenses

General Ledger reports play a key role in your financial planning. You need a detailed, easy to read picture of the who, what, when and where of your company's finances so you can figure out the how and why.

Platinum's typical G/L reports aren't always enough, providing you with only the single line item of information contained in the General Ledger section. You can see a cost and a vendor, but what about a clear description of the item and who it's for?

Evron's G/L Report extension gives you that full description by reaching back into the PFW sub-ledgers. You'll truly see what each of your costs represent and improve your ability to plan for the future.

Merges with PFW as One Product

This Platinum extension is not a generic bolt-on, but an extension to existing functionality. Built to the precise standards and protocols of Platinum for Windows software. This seamless integration ensures a smooth flow of information throughout your business.

Clear, Customizable Reports

If you find financial spreadsheets hard to decipher, you'll be pleasantly surprised by the way this PFW extension uses Crystal Reports to generate clear, customizable reports.

Yes, they look pretty on the page, but more importantly, you'll be able to read, understand and present your data more effectively.

Built by Accounting Experts

Since 1983, Evron has designed, implemented, customized and supported accounting solutions for hundreds of customers. Our close relationship with Platinum software goes back to 1991.

More Platinum Extensions by Evron.
