By Evron

## Easy Receiving with Less Errors

Evron is pleased to offer easi.Receive, a superior, value-added program that assists you in keeping track of your inventory as it comes into your warehouse.

Writing to BusinessVision in real-time, easi.Receive allows you to track inventory as it comes in. By scanning bar codes, easi.Receive logs your tracked item through a colour-coded system to show status and to reduce errors.

easi.Receive is perfect for companies where a high volume of good are received into inventory.

- Receive orders to BusinessVision with less errors, in less time, and with ease.
- Allow for real-time verification of your in stock inventory
- Supports barcode scanning to minimize risk of receiving incorrect items.
- Uses a colour-coded system to indicate progress and avoid under and over-receiving.
- Perfect for high traffic environments where goods are transferred in and out of warehouses and manufacturing centres where accuracy and speed are paramount.
- Provides full documentation and confirmation of product receipt, complete with audit trail and logs.
- Intuitive interface that is easy to learn.

The screenshot shows the 'easi.Receive' software interface. At the top, there's a menu bar with 'File', 'Settings', 'Window', and 'Help'. Below the menu is a toolbar with various icons. The main form is divided into several sections:
