

# Canadian Inbound Electronic Payments for Acumatica

Evron Computer Systems Corp.

## Collect Regular and Recurring EFT Payments From Customers in Acumatica

With Evron's Canadian EFT AR module, businesses can process incoming payments in Acumatica. It's faster, cheaper, and more efficient than traditional payment methods.

### Highlights

- Process Canadian EFT payments on a single ERP platform
- Set up a one-time collection or recurring payments so customers are charged automatically
- Compatible with all major Canadian banks, including BMO, CIBC, RBC, TD, and Scotiabank
- Automated email notifications
- Processing time for transactions is substantially faster

### Safe & Secure

- Compatible with Payments Canada requirements
- Added security measures using Pre-Authorized Debit (PAD) agreements to help prevent fraud and improper withdrawals

### Fast & Efficient

- Set up authorized recurring payments so customers are charged periodically
- Automatic notifications sent to recipients
- Reduce error by avoiding duplicate data entry

### Seamless Integration

- Embedded into the existing Acumatica Payment Method screen
- Easy installation; one-time setup

### Saves You Money

- Receive payments from customers on time; no processing delays or manual follow-ups
- No cheque fees minimize processing costs
